

## S.P.I.C.E 7TH CAMPAIGN NON-PROFIT APPLICATION

The Opelousas General Health System Foundation Employee Giving Program S.P.I.C.E is preparing to begin its 7th campaign in August 2024. We are currently accepting applications for the non-profit (501c3) partners for our 7th Campaign. Please fill out the attached application and submit it by email or mail to Cindy Torian, Foundation Director. The first phase of the selection process will be applicants invited to make a short presentation to the S.P.I.C.E committee. The second phase will be the selection phase which will be made by the S.P.I.C.E committee. Submission of your application does not guarantee funding by the committee.

S.P.I.C.E stands for Special People in a Caring Environment and our employees truly care about the community, our patients, and each other. In the past 17 years, over a million dollars has been donated through S.P.I.C.E to support local organizations, employees in need, and hospital projects such as our Healing Garden, a 3D tomosynthesis mammography system, and new security system for the safety of our employees, patients, and visitors.

Employees make a payroll deduction over the three year span of the campaign to fund the projects and organizations the committee selects. This campaign will begin August 2024 and end in August 2027. Disbursements are made annually after September and year one disbursements will be given in the Fall of 2024.

In your application please provide the reason for your request and your total dollar request. We also ask that you detail how you will promote the Foundation and S.P.I.C.E through either sponsorships, marketing, signage etc. We will in turn help to promote your organization as our 7th Campaign partner.

Actual donations are based on dollars raised within the first, second, and third years and may differ year to year. You will be notified in advance of what your contribution will be as each campaign year ends.

Thank you for submitting your application and we look forward to hearing your story!
